

A few months after my arrival to the Kemptville area in 1996, I was thrilled to learn, (as an advocate of alternative health care), of a natural health practitioner whose clinic was nearby.

I immediately made an appointment for my very painful shoulder and was pleased that after only a few visits, the pain subsided.

Under Susan's knowledgeable care, I am happy to say that as an active 77-year-old senior, I take NO medications and I enjoy my weekly visit with Susan.
